

Create your dream home

Together
we will end
homelessness

Let your imagination run wild and design your dream house!

Want a slide instead of stairs? No problem! A swimming pool in the garden? Go for it! How about a turret and a moat so you can be King or Queen of your castle?

Who would live there with you? Think about your family, friends or even famous people you admire that you would like to share your dream house with. Would you have any pets?

Draw, paint or collage your dream home and housemates. If you want to, you can label your picture to explain what happens in different parts of the house.

Parents activity: We would love to see your child's artwork! Send us a photo and we will share a selection on our channels.
